

Towel Shelf with Hooks

This product combines a towel bar and a hook for more convenience. It uses a square bar to prevent towels from falling off, and if you use robes, the hook is a useful complement to hold and stretch it out to length and get completely dry. Moreover, the design is also compact and seamless as the mounting screws are invisible.

Material: <Bracket>Resin  
<Bar>Stainless

Towel Shelf with Hooks (Bar 20 × 10mm)		
Product No.	P: length(mm)	Finish/Color
